...SPECIFICATION URL) or other network information identifier transmitted

in a closed caption portion of a television **signal**;

FIG. 2 is a flow diagram illustrating a **URL** detection and display process in accordance with the invention;

FIG. 3 illustrates an embodiment of...

...top box is used to display web content on a television display based on a **URL** or other network information **identifier** extracted from a television **signal**; and

FIG. 4 illustrates an embodiment of the invention in which a computer is used to display web content based on a **URL** or other network information **identifier** extracted from a television **signal**.

Detailed Description of the Invention

The invention will be described below in conjunction with a...should be understood to include any source of information which can be specified by a **URL** or other type of network information **identifier**. The term "television **signal**" as used herein is intended to include analog video signals in accordance with NTSC, PAL...
